Silviu Alexandru Dinu

Lead Software Engineer

+40 730 799 252 | silviualexd@gmail.com | Bucharest, Romania | LinkedIn | GitHub | silviudinu.com

PROFILE

Lead Software Engineer with 8 years in web development, now leading a team at London Stock Exchange Group that builds trading and analytics tools in React and TypeScript. Before that: full-stack work at Cognizant and EPAM Systems, front-end consulting at Deloitte Digital and WordPress themes and plugins at Themeisle. Comfortable owning a feature from design review to production, and still writing code every day. MSc in signal processing, with published research on neural networks for disease prediction.

EXPERIENCE

Lead Software Engineer | London Stock Exchange Group, Bucharest — OCT 2026 – PRESENT

- Lead a team of engineers building the trading and analytics tools our users rely on every day; own technical direction, code quality and delivery.
- Mentor engineers, run design reviews and keep the team shipping while staying hands-on in the codebase.
- Brought AI into the team's daily work: coding agents for everyday tasks, MCP servers connected to our internal tooling, and the same code review for their output as for ours.
- Stack: React, TypeScript, WebSockets, SharedWorkers, CI/CD, AI agents, MCP.

Senior Software Engineer | London Stock Exchange Group, Bucharest — FEB 2024 – SEP 2026

- Built front-end features for financial tools that simplify daily operations for traders and analysts.
- Worked with React, WebSockets, SharedWorkers and CI/CD pipelines.
- Promoted to Lead Software Engineer in October 2026.

Full Stack Developer | Cognizant, Bucharest — OCT 2022 – FEB 2024

- Engineered scalable software solutions and contributed product ideas aimed at growing customer revenue.
- Stack: React, Node.js, MongoDB, AEM, Algolia.

Full Stack Developer | EPAM Systems, Bucharest — OCT 2021 – OCT 2022

- Delivered client projects end to end across web and hybrid mobile.
- Stack: Angular, AngularJS, Node.js, TypeScript, Ionic, Cordova.

Consultant, Middle Frontend Developer | Deloitte Digital, Bucharest — FEB 2020 – OCT 2021

- Worked directly with clients to deliver front-end solutions and technical consultancy.
- Stack: Angular, AngularJS, React, SCSS, Node.js, Jira.

Junior Programmer, Technical Support Engineer | Themeisle, Bucharest — JUL 2018 – FEB 2020

- Helped customers build and fix WordPress sites, themes and plugins.
- Debugged and reported issues across PHP, CSS, JavaScript and MySQL.

SKILLS

Frontend	React, TypeScript, JavaScript, Angular, AngularJS, Vue.js, HTML, CSS/SCSS, styled-components
Backend & data	Node.js, Express, REST APIs, WebSockets, SharedWorkers, MongoDB, PostgreSQL, MySQL
AI & agents	Coding agents in day-to-day work, MCP servers connected to internal tooling, LLM APIs, PyTorch, neural networks
Cloud & delivery	Azure, AWS, CI/CD (Jenkins, SonarQube), Git, Jira, Agile teams
Also	Python, Flask, PHP, WordPress

EDUCATION

MSc, Advanced Signal Processing in Multimedia Applications | Faculty of Automatic Control and Computer Science, POLITEHNICA University of Bucharest — 2020 – 2022

BSc, Systems Engineering | Faculty of Automatic Control and Computer Science, POLITEHNICA University of Bucharest — 2016 – 2020

CERTIFICATIONS & PUBLICATIONS

Microsoft Certified: Azure Fundamentals | Microsoft — SEP 2023

MongoDB SI Associate Certification | MongoDB University — JUN 2023

Neural Network Based System for Disease Prediction (published research) | ResearchGate — DEC 2021

LANGUAGES

English (fluent), Romanian (native), Japanese (N5)
